# Introduction

Welcome to the first edition of the Emotive Sound & Light Hire Guide.

This brochure contains our hire stock list and list prices. Our aim is to offer high quality equipment at an affordable rate while, where possible, not purchasing poor quality far eastern equipment.

All of our stock comes from reputable suppliers based, where possible, in the UK or Europe with the highest levels of backup.

Should our prices not be competitive then let us know and we will do our best to match or beat any like for like quotation.

Emotive are proud to be members of NODA (National Operatic and Dramatic Association) and we are pleased to offer a 10% discount to any NODA registered society.

Emotive aren't the biggest hire company around but we pride ourselves on having the best quality equipment. We also have great working relationships with other local and national rental houses and can often offer better prices than our customers going to them direct.

Emotive Sound & Light look forward to helping you with your next hire, production, event or sale.

Rich and Nic

Directors, Emotive Sound & Light Ltd

# About Emotive

Emotive were first formed in 2011, a partnership between Nic Watkinson and Graham Hull, incorporating NW Technical and the newly acquired Darren Fuller Sound Services. They built upon existing work from both companies which had been run as smaller businesses alongside their full time work. Darren had moved over to be head of sound at the Norwich Theatre Royal and could no longer sustain his volume of mainly theatre work. Nic was at the time working for Greshams School in Holt, North Norfolk and decided to concentrate on his work as the newly formed Emotive Sound & Light Ltd.

Richard formed Entertainment Engineering Services Ltd firstly as a freelance engineer working predominantly as an installation engineer for mainly school projects and then later as EES Ltd, supplying labour and expertise to the technical installation sector of the construction industry.

Due to a change in personal circumstances Graham was forced to take a back seat from Emotive, and during this time Richard and Nic worked closely together, helping each other when needed on a freelance basis.

In 2016 Richard and Nic formally merged EES and Emotive, now offering a one stop shop of live events, both temporary and permanent.

Emotive prides itself on its equipment and staff. We stock products from the likes of Yamaha, D&B, Sennheiser, Shure, Avolites, ETC, Chauvet, Phillips (Strand & Selecon), Zero88, Maltbury, Prolyte, Kramer, Samsung, Sanyo and many many others.

Richard and Nic are both CSCS card holders as well as Richard being SSSTS. Both are IPAF and PASMA trained & City and Guilds Qualified in electrical installation and PAT testing. Richard also has inspection and testing to his name.

Emotive Operate a fleet of vehicles, which include panel vans and 4x4's.

Richard & Nic both have B+E entitlement for towing of stages and generators.

Finally, we have a database of freelance engineers and crew for all your event needs. We have worked in the industry for over 40 years combined and also have experience of many kinds of events. Give us a call and see what we can do for you.....
